Andersho, the hero of the scene, has retired from the active duties of the profession he so nobly adorned, being disabled by sinkness. For the present amid the din of war all over the land, the memory of his unobtrusive herolam is in abeyance, and will probably remain so until the roar of conflict shall be heard no more, and the impartial historian shall record for a grateful nation the exploits of its noblest defenders. The name of Anderson will then assume it was in drops or not. its right place in the temple of fame, by the side of so many others who since carned for themselves undylog

What transitions of despondency and of hope, of anger and of joy, have we gone through since the memorable 12th of April 1961 D: Dan Ren and Ball's Bluff, a sad alliteration, have since been entirely scored off, and more than repaid by Mill Spring, Pes Ridge and Pittsburg Landing ; the loss of Ly. on and Baker has been compensated by the death of Albert S Johnston and the disabling of Beauregard. But a still more striking subject for reflection is the lie speaking. sudden development of the power of this nation. Truly we have cause to be thankful to Sumter for something. Who country contained such an amount of military genius as now appears? Who ever thought that before a year should pass the skill of our naval architects would have brought about a trial between two extraordinary engines of destruction which should result in entirely changing the system of maritime wariare throughout the world? The Merriman and the Monitor are indirectly due to the homhardment of Sumter, although, doubtless, in the course of time our architects would have framed such vessels; still the

WORD OF CAUTION.

It has been estimated that over Two Hundred Thousand Dollars are paid to swindling quacks annually in New England alone; and that, too, without nany benefit to those who pay it. All this comes from trusting, eithout inquiry, to men who are alike destitute of honor, character or skill, and whose only recommendation is their nown false kind extravegent assertions, in praise of shorastice. The only way to avoid imposition is to take no man's word, no madeer what impretensions are, but MAKE IN-QUIRY It will oost you nothing, and may save you minny regrets; for, as advertising physicians in nine cases out of ten are bodies, there is no safety in trusting day of them unless you know who and what they are.

A PURS, IRALTHY TONIC, and one free from the deleterious and injurious effects sure to follow, these in ordinary use, has long been left to be a desideration in the madical world. Such a tonic, and one so skillfully combined from the vegetable kingdon as to act in perfect accordance with the laws of nature, and thus sooth the weakest atomach, and at the ame time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Porf. WOOD'S Reditorative Cordial and Blood Renovator. Hence, it is perfectly adapted to old and young. Reader, fry it. Thousands have already done so, and the testimony is universal in its favor.—Non-York Atlas.
